You and your furry friends are invited!

The Leadership Lincoln class of 2018 would like to invite you to come out and celebrate with us as we cut the ribbon on Lincoln's newest dog park.

- **When:** May 20th from 9am to 12pm
- **Where:** McBean Park between the basketball courts and the skatepark.

Over the past several months our Leadership class has joined hands with local nonprofit groups, business leaders and city officials to convert this unused land into a park for both small and large breed dogs.

The ribbon cutting event will take 30 minutes and we welcome you to stay, enjoy the park and visit the vendor booths. We plan to have Petsmart, VIP Pets, Fo Paws, Abbi’s Grooming and others on hand with treats for you and your dogs. It should be a great day, please bring a friend.

---

**Leadership Lincoln** is a program offered through the Chamber of Commerce and allows its students a look into the history of Lincoln, the intricacies of local government, and local industries which are

the backbone of the community. The program hopes allow leaders to rise from the community and assume roles in local government and city commissions. The class meets monthly from October to March to learn, discuss and collaborate on city issues. Each class is asked to complete a project designed to better the community. For our class project we chose to build a dog park using unused land at McBean Park. This project allows citizens another place to take their pets and unlike Auburn-Ravine Dog Park is much closer to parking. We were also told that parks like this in close proximity to skate parks often curb criminal behaviors by attracting more responsible visitors. Over the past several months we have planned and built the park with help from the city and several generous donations from local nonprofits, businesses and citizens.
